Diplomáticos

```
graph TD; A[Diplomáticos] --> B[NFJ]; A --> C[NFP]; B --> D[INFJ]; B --> E[INFP]; C --> F[ENFJ]; C --> G[ENFP];
```

The diagram is a hierarchical tree structure. At the top is a green rounded rectangle labeled 'Diplomáticos'. A vertical line descends from it and connects to a horizontal line. This horizontal line branches into two vertical lines, each leading to a green rounded rectangle: 'NFJ' on the left and 'NFP' on the right. From the 'NFJ' box, a vertical line descends to another horizontal line, which branches into two vertical lines leading to 'INFJ' and 'INFP'. Similarly, from the 'NFP' box, a vertical line descends to another horizontal line, which branches into two vertical lines leading to 'ENFJ' and 'ENFP'. All boxes are green with rounded corners and a dark green border. The text is in a bold, dark blue serif font.
